Post-suburbia is a term that encapsulates a variety of contemporary urban forms, in particular the 'edge city' - a term used to describe the rapid growth of new urban centres at the edges of established major cities.

Widely discussed in the US, very little has been written about European edge cities and this book provides a comparative analysis of examples in Greece, Spain, Paris, Finland and the UK, offering a theoretical analysis of the edge city and of post-suburban Europe.
