Women will have different symptoms than men in so many things, however; my symptom was very strange indeed. My stroke caused me to have temporary disability; that is what I say to myself, although I do not have complete use of my right arm and leg, I consider it to be only temporary. I can walk with the use of a cane now, and I can use my right hand for some tasks. I have faith and have always projected complete recovery. I always speak healing over my body, although I don't see the immediate healing like you see on T.V. I have never doubted about my healing. In my dreams I am always going about doing my chores and running errands in a complete state, I have never seen myself as been disabled. Thank God strokes can be treated and prevented, as long as you keep your blood pressure, cholesterol, and your blood sugar under control. Always visit your doctor to get them regulated. I was completely paralyzed on the right side of my body; I had no control of the muscles on the right side of my face, arm and leg.
