After fog forces her to spend the night in a country guesthouse called The Seven Stars, Helen Campbell reads her horoscope in the local paper.

Little does she realise that by doing so she will dramatically change not only her own life, but the lives of everyone else living in the village.

Ten days later, she returns to stay at The Seven Stars while attending a local course on antiques. Slowly she finds herself increasingly involved in the lives of the people living there.

As she arrived a girl was killed in a hit-and-run accident.

But was it an accident? Or was it murder?

A spate of robberies have targeted local country houses. Are they connected to the girl's death?

And what is the significance of the phrase which recurs in the horoscope column under 'Tomorrow's Birthday'?

Whether or not it was written in the stars, Helen's stay at the guesthouse ensures that life will never be the same again... for any of them.

'The Seven Stars' is a gripping crime novel featuring Anthea Fraser's popular detective David Webb.
