Vascular and Interventional Radiology: The Requisites John A. Kaufman, Michael J. Lee

Part of the definitive Requisites series, this volume offers all the essentials necessary to pass exams in radiology and practice in the field. Practicing radiologists will use it as a handy, practical, daily reference tool in this subspecialty area. The first part on Vascular Radiology covers the following topics: vascular imaging techniques; vascular pathology; lower extremity and pelvis; abdomen; thorax; and the great vessel. The second part on interventional radiology covers topics such as: basic principles; vascular interventional techniques; biliary tract; GU and reproductive systems; gastrointestinal system; biopsy and drainage in the abdomen; cervicothoracic biopsy; and drainage in the thorax.

- Provides a comprehensive yet manageable review of the principles and practice of vascular and interventional radiology for the resident preparing for exams and for the practitioner needing a quick-consult resource of information.
- Provides a solid foundation laid in the basics of state-of-the-art vascular and interventional radiology.
- Includes discussion of vascular procedures in the lower extremity and pelvis, abdomen, thorax, and great vessel, and other interventional procedures in the biliary tract, GU and reproductive tracts, GI tract, and thorax, placing principles in a clinical context.
- Includes personal and to-the-point discussions in a well-organized format, providing a friendly tone for enjoyable, effective learning. Appropriate to read from cover-to-cover or to skim for off-the-shelf consultation.
- Provides chapter-opening outlines revealing topics to be covered in the chapter and providing a useful search engine for quick location of material.
- Includes numerous boxes and tables which highlight differential diagnosis, radiologic patterns of disease, key findings, indications for procedures, procedural steps, handy tips, and other critical guidelines to emphasize key facts and concepts and help the reader identify and absorb important information.
- Includes approximately 750 high-quality, multimodality images integrated into text.
- Provides a suggested readings list of journal articles and books relevant to the chapter topic at hand, recommending further study and review.
- Part of the highly-acclaimed series, THE REQUISITES, which offers an effective formula for exam preparation and practical daily reference.

Doug Martin:

A lot of people always spent their own free time to vacation or maybe go to the outside with them family or their friend. Are you aware? Many a lot of people spent that they free time just watching TV, or even playing video games all day long. If you wish to try to find a new activity that is look different you can read some sort of book. It is really fun to suit your needs. If you enjoy the book that you just read you can spent 24 hours a day to reading a guide. The book Vascular and Interventional Radiology: The Requisites it is rather good to read. There are a lot of those who recommended this book. They were enjoying reading this book. In case you did not have enough space to develop this book you can buy typically the e-book. You can m0ore easily to read this book from your smart phone. The price is not to fund but this book possesses high quality.

David Fern:

As a scholar exactly feel bored to reading. If their teacher inquired them to go to the library or to make summary for some reserve, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the teacher want, like asked to the library. They go to there but nothing reading significantly. Any students feel that reading through is not important, boring along with can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Vascular and Interventional Radiology: The Requisites can make you experience

more interested to read.
