Series Description

Note: For best results and the most comprehensive reading and research experience, please use book in conjunction with the bonus downloads.

The Hill Resource and Reference Guide series is a comprehensive and authoritative source of quality health research sources for both the layperson and medical health professional. Each guide compiles the most important bibliographic scientific research materials for one specific disease or health disorder.

A breakthrough text on researching disease each volume also explores the basics of researching medical conditions online and provides direct access to research databases used by all renowned professional medical scientists.

Each volume is organized in reference format allowing the reader to go directly to any chapter without first reading a preceding chapter. Logically arranged separate chapters cover:

- * **Epidemiology** - distribution of disease
- * **Etiology or Aetiology** - disease cause and risk factors
- * **Diagnosis** - disease identification
- * **Signs and Symptoms** - physical/psychological nature of disease
- * **Pathophysiology** - the body's response to disease
- * **Treatment and Therapy** - methods to relieve or heal a disorder
- * **Prognosis** - likely course or outcome of a medical condition

Additional sections also provide readers with best resources available for studying alternative medicine and complementary medicine, the role of nutrition in disease, information sources on drugs and prescription

medications, herbal remedies and biotechnology and a short explanation of Evidence Based Medicine, the dominant paradigm in patient care and treatment in Western medicine.

Finally, instruction in how to freely access and search the National Institutes of Health multiple research databases, including PUBMED and MEDLINE, is also included.

Packed with useful information, each edition is intended to be used with the bonus downloads to provide readers with their own comprehensive and essential medical library.

Joseph Estenson is a medical researcher and reference librarian with over 20 years experience researching complex public health issues.

This Carbon Monoxide Poisoning - A Reference Guide (BONUS DOWNLOADS) (The Hill Resource and Reference Guide Book 88) having great arrangement in word and also layout, so you will not truly feel uninterested in reading.

Lynda Wright:

Spent a free a chance to be fun activity to perform! A lot of people spent their down time with their family, or all their friends. Usually they undertaking activity like watching television, about to beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Will you something different to fill your own free time/ holiday? Can be reading a book could be option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of guide that you should read. If you want to try out look for book, may be the publication untitled Carbon Monoxide Poisoning - A Reference Guide (BONUS DOWNLOADS) (The Hill Resource and Reference Guide Book 88) can be excellent book to read. May be it may be best activity to you.

Gerald Chisholm:

Do you really one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Make an effort to pick one book that you never know the inside because don't ascertain book by its cover may doesn't work is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer might be Carbon Monoxide Poisoning - A Reference Guide (BONUS DOWNLOADS) (The Hill Resource and Reference Guide Book 88) why because the excellent cover that make you consider with regards to the content will not disappoint you actually. The inside or content will be fantastic as the outside or perhaps cover. Your reading sixth sense will directly direct you to pick up this book.

Jeffery Chavis:

As a student exactly feel bored for you to reading. If their teacher questioned them to go to the library or to

make summary for some publication, they are complained. Just tiny students that has reading's spirit or real their passion. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Carbon Monoxide Poisoning - A Reference Guide (BONUS DOWNLOADS) (The Hill Resource and Reference Guide Book 88) can make you feel more interested to read.
