The Prophecies by Nostradamus Nostradamus

It's safe to say that there have been countless prophets and seers throughout history, but only one Nostradamus (1503-1566). **Nostradamus has become a pop culture fixture even among those who find nothing of note in his work, and he is a cult figure among those who pore through his prophecies to look for proof that he foresaw major world events centuries ahead of time.**

Nostradamus spent most of his life as an apothecary at the height of the Renaissance taking hold across Europe, but by 1550 he was heavily involved in the occult and began to stop practicing medicine. That year he published an almanac that was successful enough to encourage him to keep putting out more almanacs annually. In the process he collected thousands of prophecies.

In 1555, Nostradamus published his famous *Prophecies*, which was to be 1,000 quatrains that created undated prophecies, writing them in Greek, Italian, Latin, and French in the hopes of making his writing obscure enough to avoid religious persecution. Indeed, many considered Nostradamus a fraud or worse, but he found favor among the French Royal family, who found them spiritually inspired, sentiments encouraged by Nostradamus himself naturally.

Over time, his other works faded into relative obscurity, but people continued to see what they wanted to see in his *Prophecies*, which Nostradamus had touted as the work of judicial astrology despite the fact professional astrologers of the time considered his work junk science. And while the *Prophecies* became wildly popular across the world and had thousands of different commentaries and editions published, **modern scholars closely analyzing his writing have found that it is a mixture of Biblical prophecies, ancient end-of-the-world scenarios, and historically inspired events involving Ancient Romans like Sulla and Nero.**

Nostradamus took pains to claim that he was not truly a prophet, but his vague style has succeeded in making him a legend of history instantly recognizable by one name.
