This award-winning bestseller now includes an expanded introduction addressing the Common Core State Standards

This practical book shows middle and high school teachers how to apply Wineburg's highly acclaimed approach to teaching, *Reading Like a Historian*, to increase academic literacy and sparking students' curiosity. Each chapter begins with an introductory essay that sets the stage of a key moment in American history, beginning with exploration and colonization and the events at Jamestown and ending with the Cuban Missile Crisis. Primary documents, charts, graphic organizers, visual images, and political cartoons follow each essay, as well as guidance for assessing students' understanding of core historical ideas.

"For years, bands of educators have been trying to free history instruction from the mire of memorization and propel it instead with the kinds of inquiry that drive historians themselves. Now, the common-core standards may offer more impetus for districts and schools to adopt that brand of instruction. . . . The Reading Like a Historian program . . . is getting a new wave of attention as teachers adapt to the Common Core State Standards in English/language arts. Those guidelines, adopted by all but four states, demand that teachers of all subjects help students learn to master challenging nonfiction and build strong arguments based on evidence."

-- **Education Week Spotlight** (July 30, 2012)

"This is what research dissemination is all about if we ever want to make a positive difference in students' lives and our own futures."

-- **Teaching History: A Journal of Methods**

"All educators who want to promote deeper understanding should read and use this wonderful book."

-- **Linda Darling-Hammond**, Stanford University

"The focusing questions, the teaching tips, and the primary sources make it possible for any teacher of

history and social studies to help students become more interested, careful, and effective in handling information."

-- **Grant Wiggins**, president, Authentic Education

"What a great resource for teachers of history! This book explains how teachers can help students bring a critical eye to history, teaching ways of thinking that they can use in all of their studies."

-- **Diane Ravitch**, New York University
