Tell Me Another Story the Book of Sm Programs (Classic Reprint) Carolyn Sherwin Bailey

Tell me another story. The book meets this child longing on a psychologic basis. It consists of groups of stories arranged so that their telling will result in definite mental growth for children, as well as satisfied story hunger. There has been a tendency in the past to group stories in a haphazard way; there has been no organized plan of selecting stories to precede and follow one another for the purpose of definite functioning of mind processes. The effect of one story of distinctly differentiated theme from one which has just been told is to break continuity of thought. On the other hand, stories of similar theme, but contrasting form told in the story-hour have a mental effect of concentration and will training. This mental growth through stories is the aim of the book.
