## **Who Deliberates?: Mass Media in Modern Democracy (American Politics and Political Economy Series) Benjamin I. Page**

Public deliberation is essential to democracy, but the public can be fooled as well as enlightened. In three case studies of media coverage in the 1990s, Benjamin Page explores the role of the press in structuring political discussion.

Page shows how the *New York Times* presented a restricted set of opinions on whether to go to war with Iraq, shutting out discussion of compromises favored by many Americans. He then examines the media's negative reaction to the Bush administration's claim that riots in Los Angeles were caused by welfare programs. Finally, he shows how talk shows overcame the elite media's indifference to widespread concern about Zoe Baird's hiring of illegal aliens. Page's provocative conclusion identifies the conditions under which media outlets become political actors and actively shape and limit the ideas and information available to the public.

Arguing persuasively that a diversity of viewpoints is essential to true public deliberation, this book will interest students of American politics, communications, and media studies.
