The Earthscan Action Handbook for People and Planet (Environmentalism and Politics Set) Miles Litvinoff

We have poisoned the air and water on which our lives depend. Poor countries exhaust their land in the struggle to survive while rich countries demand more and more.

The Earthscan Action Handbook spells out why things have gone so terribly wrong and what each of us can do to clean up the mess. Each chapter deals with one of the major problems people and the planet now face: meeting the human needs of health, education and social justice as well as the environmental needs of our dying lakes and forests, polluted seas, threatened habitats and endangered species. Packed with suggestions for positive action, this book also gives details of who to contact, what to read and where to go if you want to do more. Whether you care about buying safe food or feeding the world, The Earthscan Action Handbook is indispensable. Originally published in 1990
