The Great Pyramid Prosperity Machine: Why the Great Pyramid was Built! Steven Myers

The Great Pyramid Prosperity Machine reveals the reason why the Great Pyramid was built! Discarding the unworkable explanations offered by Egyptology, Steven Myers provides a detailed and compelling explanation of the original purpose of this ancient highly technical wonder. The Great Pyramid was not a tomb built using a ramp but this ancient wonder was built using a sophisticated procedure and was created to be a prosperity machine. The Great Pyramid Prosperity Machine was a functioning device which was infrastructure for the civilization which built it. This infrastructure transformed the desert into a garden. This infrastructure transformed subsistence living into leisure. It transformed scarcity into abundance and poverty into wealth for those who possessed the wisdom and courage to build the Great Pyramid! Prosperity was why the Great Pyramid was built! But more than just describing the ancient high technology of the Great Pyramid, Steven Myers advocates that the Great Pyramid can help people now in our modern but troubled world. He contends that the technology used in the infrastructure we call the Great Pyramid must be redeveloped in our modern Age to improve our lives, create a cleaner environment, break our addiction to oil and usher in a new era of unsurpassed prosperity. All this is possible if our hurting civilization embraces the high technology of the Great Pyramid Prosperity Machine.
