## **The Anatomy of Bloom: Harold Bloom and the Study of Influence and Anxiety** Alistair Heys

Here at last is a comprehensive introduction to the career of America's leading intellectual. *The Anatomy of Bloom* surveys Harold Bloom's life as a literary critic, exploring all of his books in chronological order, to reveal that his work, and especially his classic *The Anxiety of Influence*, is best understood as an expression of reprobate American Protestantism and yet haunted by a Jewish fascination with the Holocaust.

Heys traces Bloom's intellectual development from his formative years spent as a poor second-generation immigrant in the Bronx to his later eminence as an international literary phenomenon. He argues that, as the quintessential living embodiment of the American dream, Bloom's career-path deconstructs the very foundations of American Protestantism.
